

Performance through-and- through.

LEED-contributing bonding and surfacing solutions
for commercial and residential building.

The Ingredients of **Green.**[™]

Arclin's high performing resins and innovative surface overlays = one source for unsurpassed quality in wood-based building products for commercial and residential construction.

And one source for LEED-contributing solutions to some of the building industry's most complex environmental challenges.

The Ingredients of **Green.™**

E-Flect™
radiant heat barriers

Arclin's E-Flect™ radiant heat barriers provide 97% heat deflection — perfect for hot climates and special code requirements.

E-Natural™ & E-Sorb™
ultra low- to zero-emitting resins for wood panels

ULEF capable, qualify for LEED EQ Credit 4.4 for improved air quality.

FSC® Overlays for Concrete Forming

Extend panel life up to 20 times non-overlaid panels. May contribute to LEED MR Credits 2.1 and 2.2 for waste reduction and MR Credits 3.1 and 3.2 for material re-use.

E-Sulate™
formaldehyde-free insulation binders

Zero-emitting binder may contribute to LEED EQ Credit 3.2 and points under the National Association of Home Builders' Green Building Standard for improved air quality.

Ultra low-emitting decorative overlays for wood panels

GREENGUARD for Children & Schools™-certified, may contribute to LEED EQ Credit 4.4 for improved indoor air quality. Available with FSC®-certified papers, made in FSC® chain of custody-certified facilities.

Arclin applies its proprietary **E-Gen™** designation only to its products that are expressly engineered to meet or exceed existing product performance standards **and** to reduce manufacturing and downstream environmental impact.
