

DustCap[®]

FREEZE CONTROL & DUST SUPPRESSION FOR THE EQUINE MARKET

Safer Surfaces for Horse *and* Human

In an equine environment, hard, icy surfaces can be hazardous to both horse and human. When the ground is frozen, footing is insecure, increasing the risk of falls and injuries.

Arclin's DustCap[®] is specifically designed to lower the freezing temperature of the ground in arenas and training rings, on riding tracks and courses, and on surrounding access roads. It also helps the soil thaw more quickly, offering added protection against the perils of cold winter temperatures. And in winter and summer alike, DustCap[®] acts as a dust suppressant, significantly reducing the threat of harmful air particles and impaired sight caused when hooves, or wind, kick up dust on the track or road.

Sprayable and environmentally friendly, DustCap[®] is water-based, safe and cost-effective — a clean and simple way to control freezing and dust where horses are present. Arclin's DustCap products are E-Gen[®]-designated, which means they provide great performance and reduce negative impacts on the environment. DustCap[®] Freeze Control & Dust Suppression for the Equine Market:

- Lasts longer than other freeze control treatments, so you treat less often and save money
- Doesn't corrode application equipment or vehicles that drive on treated surfaces
- Improves surface integrity with repeated use
- Uses a non-toxic, biodegradable formula to enhance safety for horses and people

E-Gen[®]

Technological innovation protects horses — and the environment.

Arclin has decades of experience in developing innovative chemistries, continually raising the bar on performance standards in industries for products from thermally fused laminates to high-nitrogen. Today, Arclin is applying its advanced technological expertise to solve complex performance and environmental challenges for mining, oil and gas production, building—and the business of raising, training and caring for horses. Safe, clean, green... effective.

Using nature—*better*.

FREEZE CONTROL & DUST SUPPRESSION FOR THE EQUINE MARKET

E-Gen[®] DustCap[®] Products

Agriculture

-  NitroGain[®] Slow Release Nitrogen Fertilizers (Liquid)
-  DustCap[®] Freeze Control & Dust Suppression for the Equine Market
-  DustCap[®] Dust Suppression for Haulage Roads
- Bovine Hoof Treatment
- Evaporative Cooling Media
- Floral Foam

More E-Gen[®] Products from Arclin

-  E-Sulate[®] Formaldehyde-free Insulation Binders
-  E-Flect[®] Radiant Heat Barriers
-  E-Natural[®] & E-Sorb[®] Ultra Low-to Zero-Emitting Binders for Wood Panels
-  Ultra-low Emitting Thermally Fused Laminates for Wood Panels
-  FSC[®] Overlays for Concrete Forming
